# THE MILLENNIUM SCHOOL, HMEL

Our summer holidays are here again  
Ma'am told us all, as we jumped up and down  
We squealed with delight and looked at her face  
As she gathered us all in a warm embrace

May this holiday be a blessing sweetheart  
Never let that smile from your face depart  
May your days be filled with love and cheer  
While you fill others' lives with joys so dear

Take mamma and papa for a trip out of town  
Keep flashing that sun shine smile not a frown  
father loads of jewels for your little crown  
Be it yellow, purple, red, blue or brown

Take grandma and grandpa for a nature walk  
Hold them close to your heart while they talk  
Tell grandma to make you her magical dish  
And please do tell grandpa your secret wish

Go to bed early with a dream in your heart  
And wake up to greet the bright sun sweetheart  
Tell mamma to make yummy, cool and healthy food  
While you enjoy this vacation in a happy mood

Ma'am told all these as we laughed and sang  
Hip! Hip! Hurray with a joyful bang  
She lovingly gathered us all in her arms  
And made all of us feel so special and warm

Ma'am told all these as we laughed and sang  
Hip! Hip! Hurray with a joyful bang  
She lovingly gathered us all in her arms  
And made all of us feel so special and warm

Dear Parent

Happy holidays with our little darlings!!!!

We are going to miss our little bundles of energy and will be waiting to have them back filled with joy, health and energy.

Allow the child to observe, explore and find his/her own solutions so that they enjoy doing their work. The Millennium philosophy of "life long learners" can only become a reality if learning comes from within, so let's together make this happen to our little ones and fill their wonder years with golden moments.

The Integrated Assignments will help children develop their skills and enhance the values imbibed in them.

Let every moment of this vacation be a time to unite, connect and enjoy beautiful moments with your child.

Thanking You

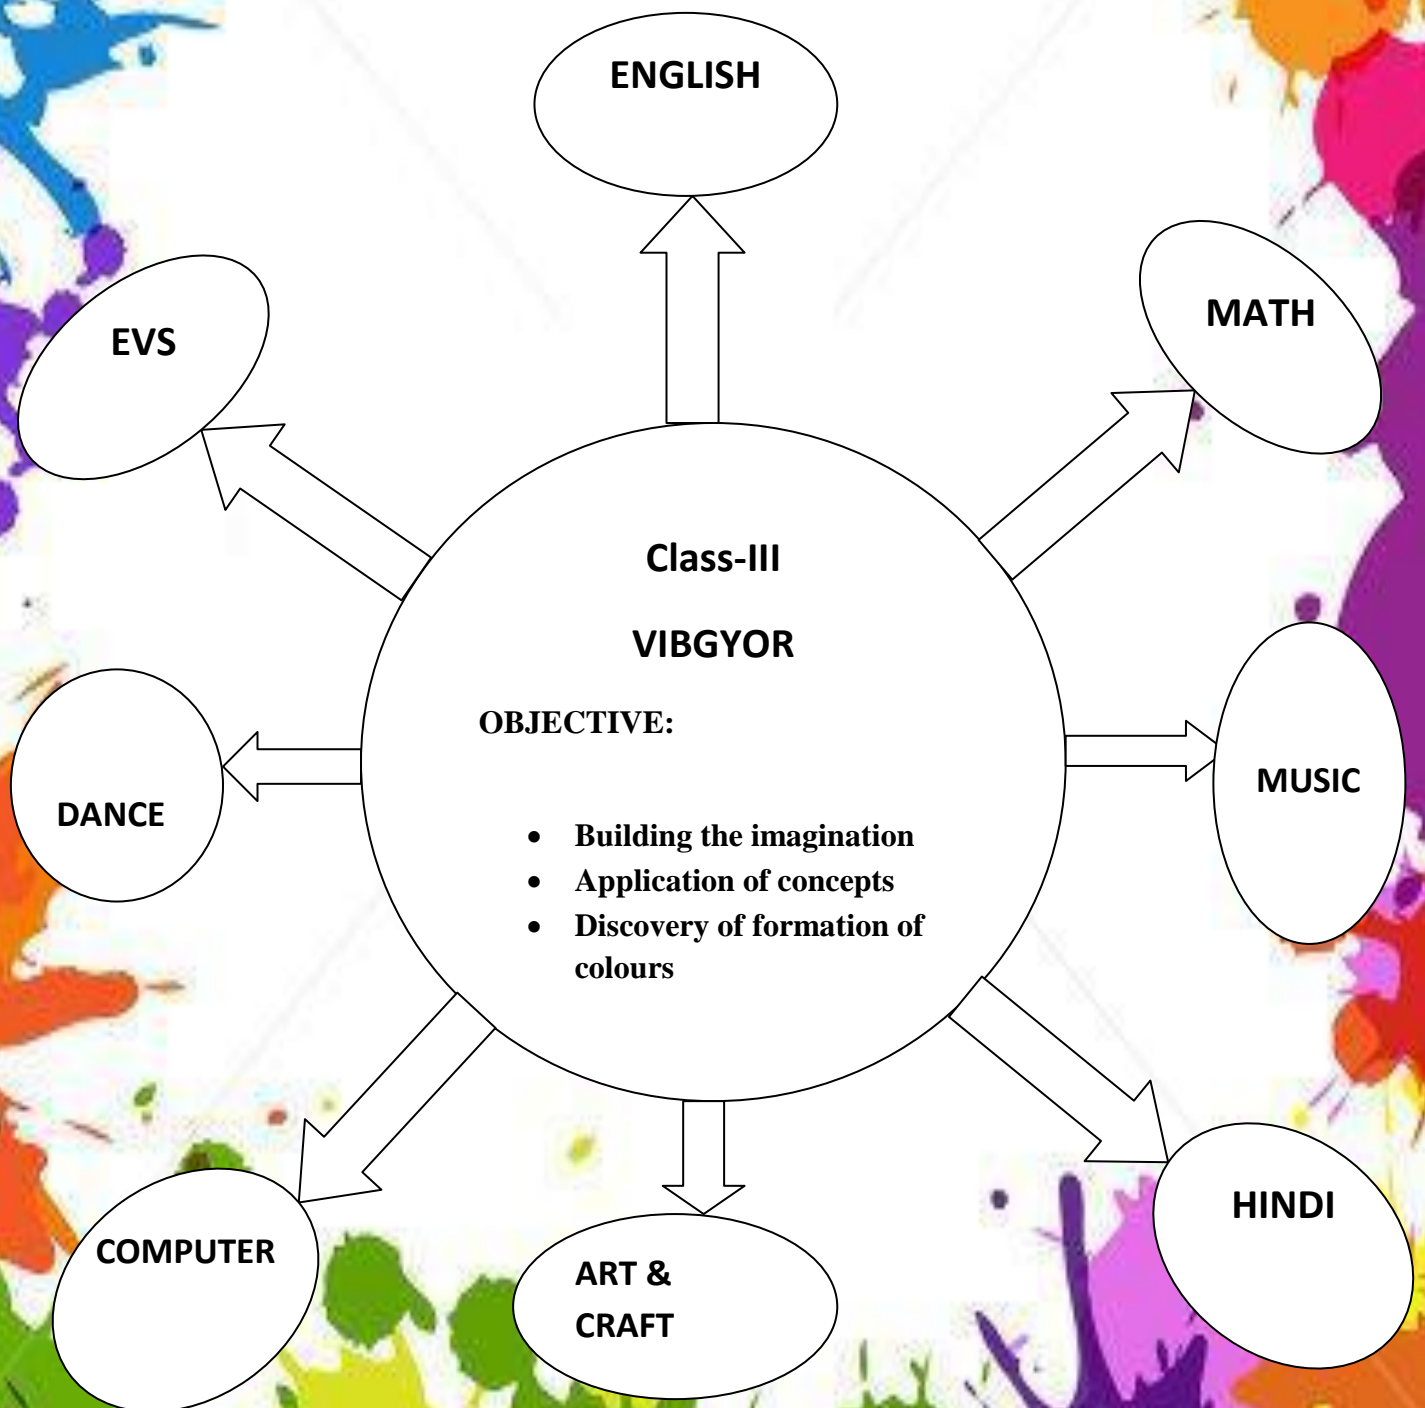

Regards

Class Teacher

# HOLIDAY ASSIGNMENTS

## 2018-2019

## **Activities for enjoyment**

- ‘Work and Play are Equally Important’. Computer games are good. They sharpen your intellect, but what about the rest of your body? You do need some exercise, don’t you? Go cycling, play badminton, cricket, kho-kho, hide n’ seek ..... anything that makes you run.
- Learn a new hobby– swimming, roller skating, cricket, karate, golf summer camp etc.
- Go for walks with your family. You will realize you have two of the greatest gifts of life....NATURE and your FAMILY.
- ‘Care and Concern’ this is your chance to look after your parents, grandparents, elders and even your younger brothers and sisters. You can surely be of some help to your family members. Ask your family members if they need some help and then do the needful.
- Visit new places along with your family and make a collage, using photographs on your return and show them to the class teacher, e.g., local historical sites can be visited.
- Read the newspaper daily.
- Read at least two books of your interest during the vacation. Maintain a self-made dictionary of the new words you come across while reading.

## **Guidelines**

- The holiday assignment should be done as per the instructions.
- Manage your time in such a way that a little work is done every day and there is no piling up for the last moment. Keep a fixed time for doing your work every day.
- Do the work neatly as per the given instruction.
- Collect the materials required for the work in advance.
- Enjoy the activities so that the work becomes fun.
- Creativity and originality of the work will be appreciated.
- Your parents are requested to encourage you to do the homework independently.
- It should be submitted on or before 6th July 2018.
- Compile and put your holiday homework in an attractive folder.
- Use FLIPLEARN Prime , encyclopedias, internet for exploring about the concept.

Activity 1:

## How To Make A Rainbow

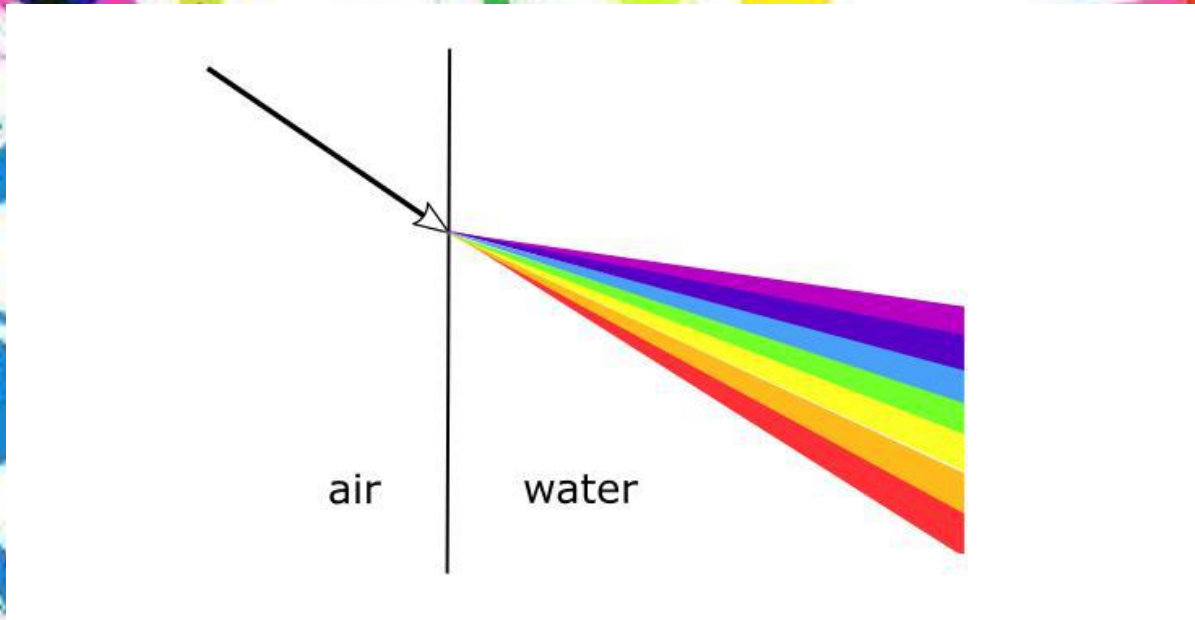

### How Are Rainbows Formed?

Sunlight or white light is a mixture of all the rainbow colors. The different rainbow colors are essentially mixed together to result in a white color.

When light passes from one medium to another medium of a different density (e.g. from air to water), the light bends. This is known as **refraction of light**

White light is split up after passing from air to water and the individual colors become visible. This **dispersion of light** allows us to see the spectrum of colors that form a rainbow.

### Steps to form a Rainbow:

- Fill the glass almost to the top with **water**.
- If you are using **sunlight**, place the glass so that it is half on and half off the edge of a table, and so that the **sun** shines directly through the **water**, onto a sheet of white paper on the floor.
- Try different angles, adjust the paper and the glass until a **rainbow** forms on the paper.
- Click pictures while doing this activity and present it in a form of a PPT.

**Have you ever seen a Rainbow forming a full circle known as “Brahma Dhanush”?**

### Activity 2:

After understanding the formation of rainbow, imagine there is a rainbow in the sky and write a poem/paragraph describing your feeling on seeing the Rainbow and admiring its beauty.

This activity should be done in Hindi and English and presented in a form of a Brouchure.

### **Activity 3:**

1 2 3 4 5 6 7

- Make any ten, 4 digit numbers using these numbers.
- Write number names of all ten numbers.
- Write them in ascending and descending order.
- Choose any five numbers and write their expanded forms.
- Learn and write the tables of 11 to 20 in Scrap Book.

### **Activity 4:**

Write a stanza of any song related to colours. With beautiful expressions and steps, make a small presentation/ video for two minutes of the same and mail it to [itcoordinator.hmel@themillenniumschoools.com](mailto:itcoordinator.hmel@themillenniumschoools.com) .
